BIMTLY

Every vehicle on one live map. Every drive in one report.

Marko Šantić, Founder & CEO · marko@bimtly.com

Where are the vans now? How far did they drive?

A normal day in the office. Every answer takes a call, a search or a guess.

07:40

THE OFFICE CALLS A DRIVER

“Ivan, where are you now?”

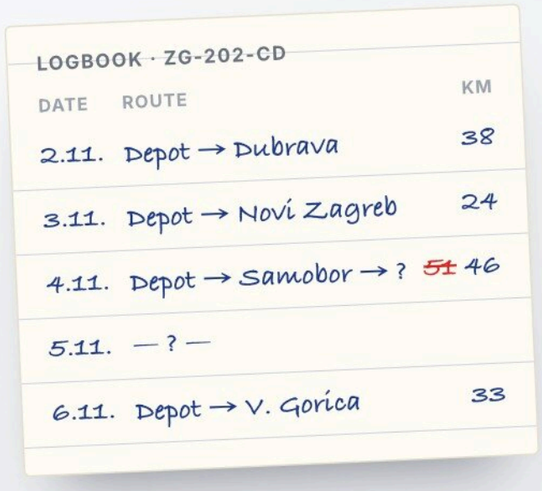

10:15

A CUSTOMER WRITES

“When does your van arrive?”

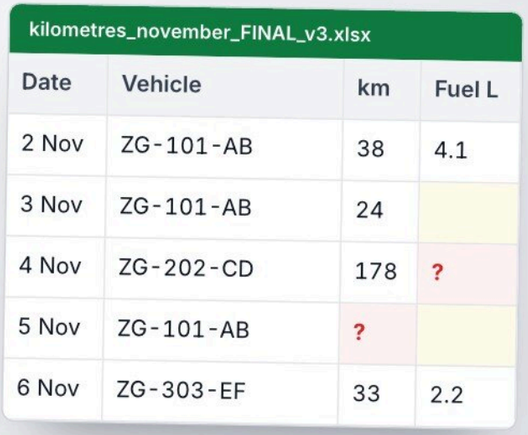

16:30

THE MANAGER ASKS

“Who drove the truck yesterday, and how far?”

30 Nov

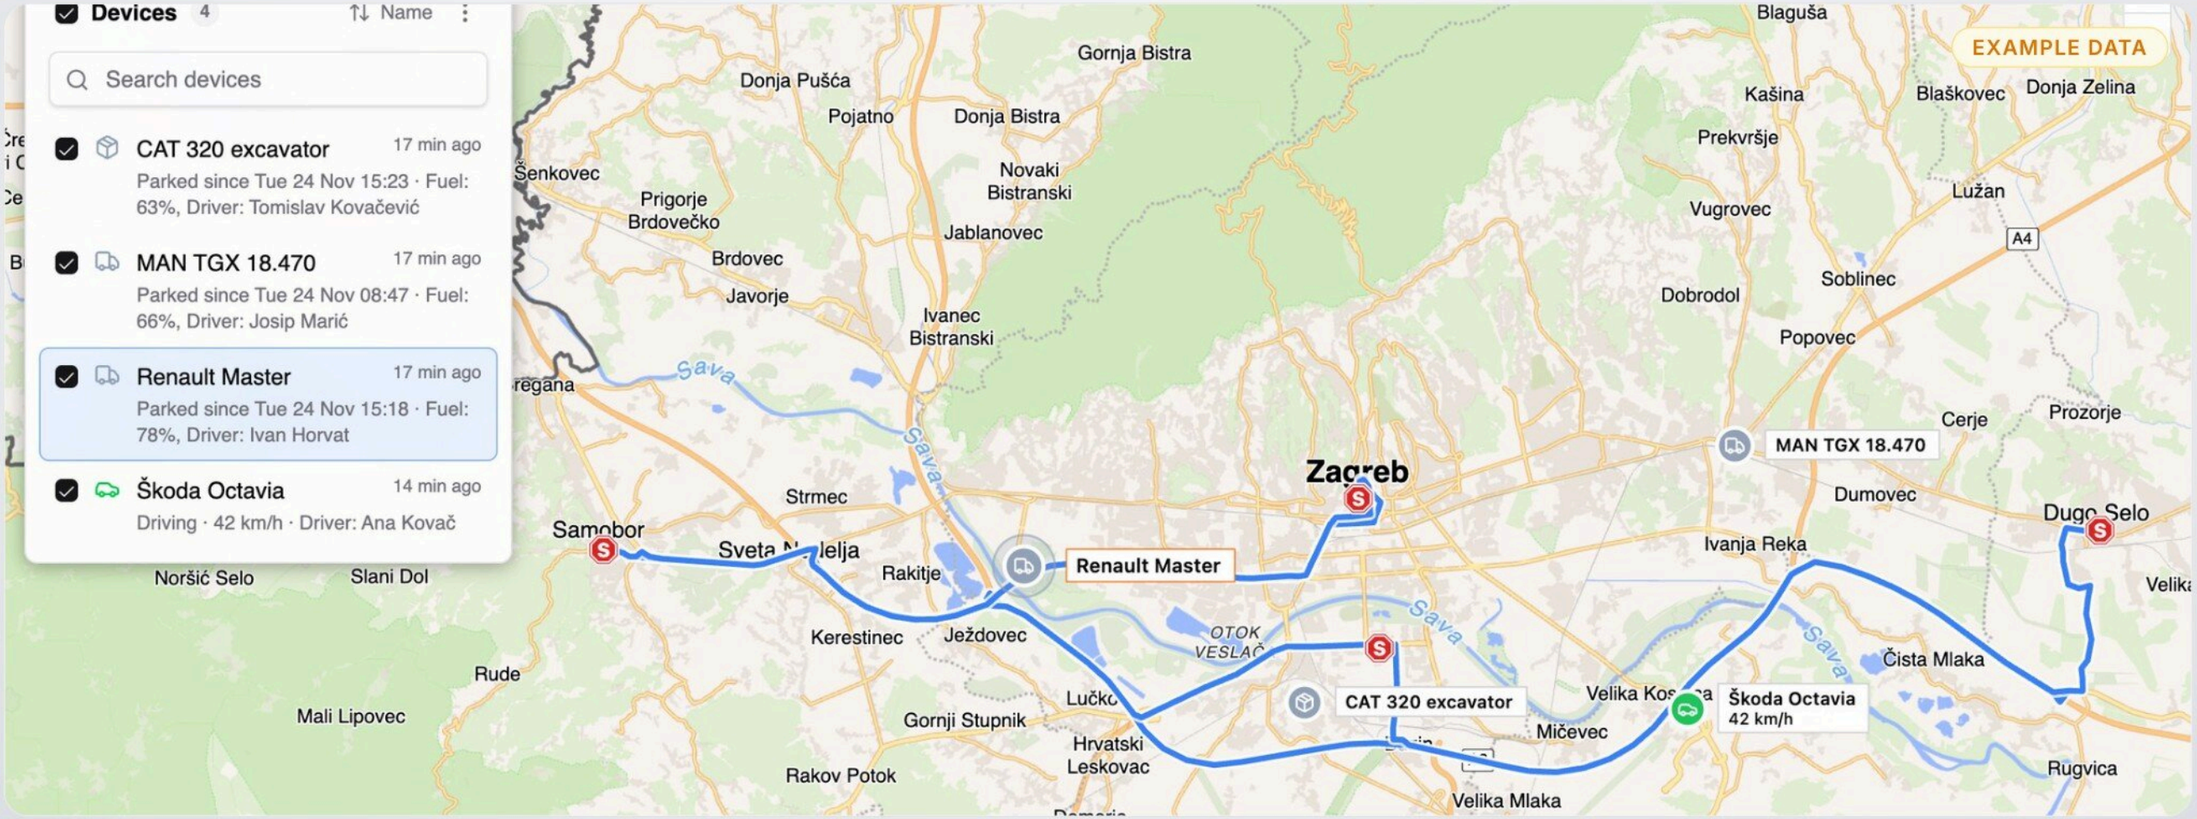

MONTH END

Logbooks and fuel receipts typed into a sheet.

Every vehicle, live on one map.

Where it is, how fast it drives, since when it is parked, and who drives it.

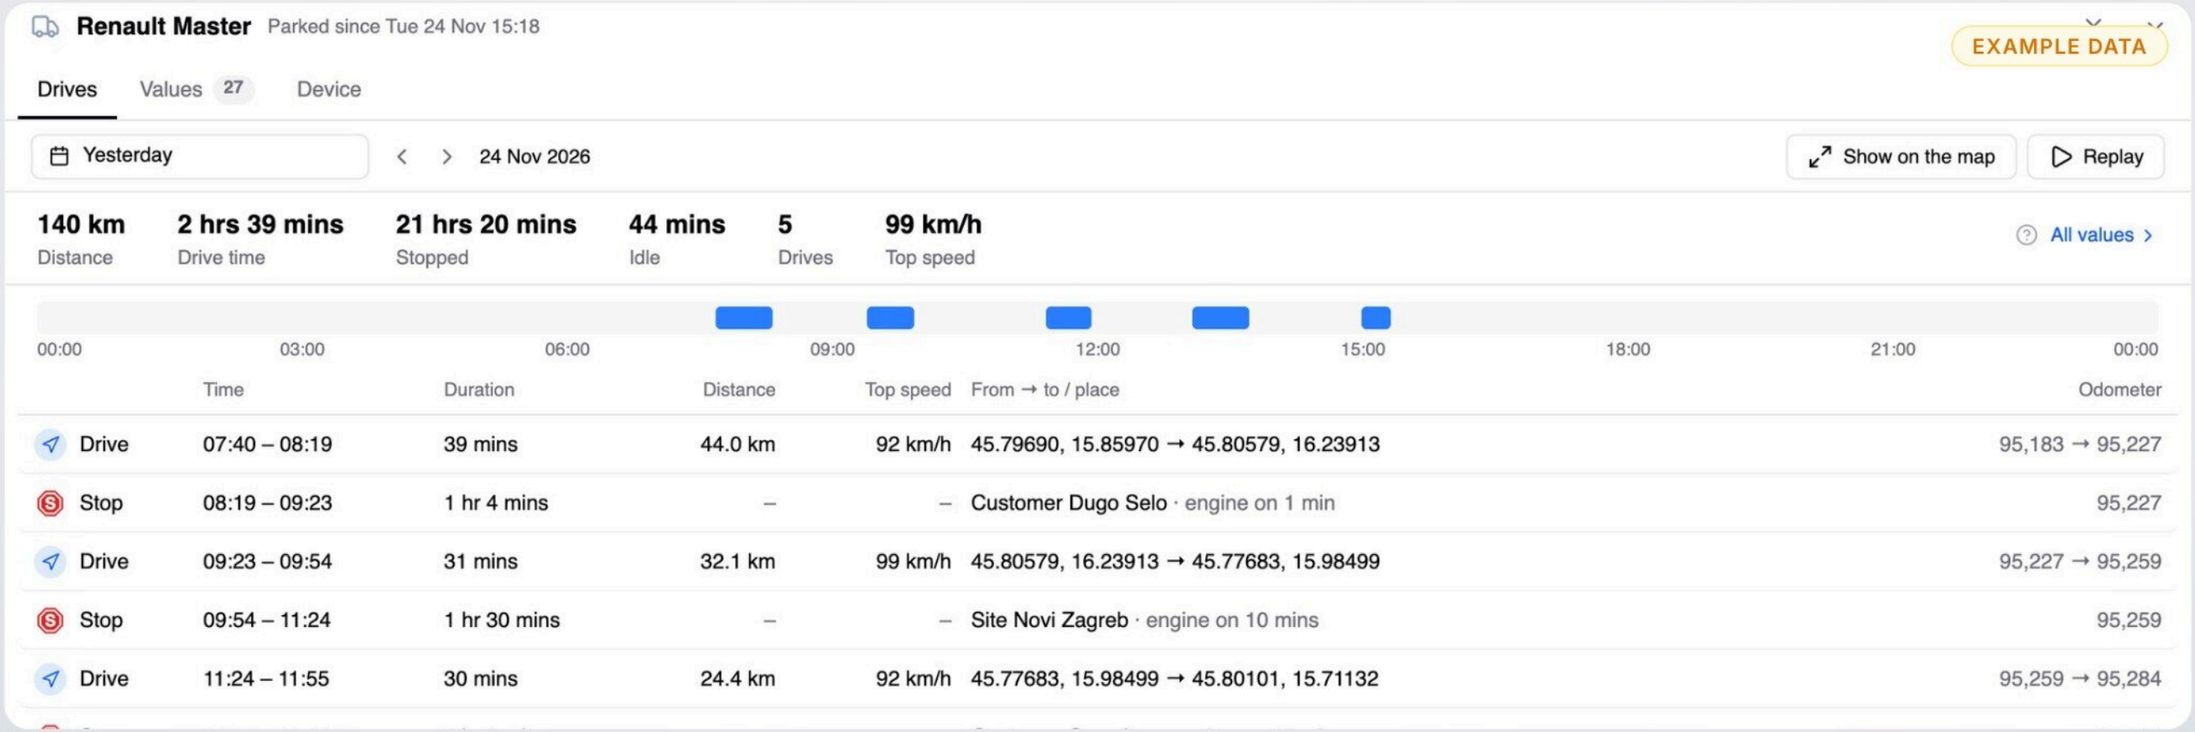

BUILT Every vehicle with its name, its driver and its fuel. Choose one to see its drives and stops.

© 2026 · bimtly.com

Every day as drives and stops.

A timeline of the day and a list of each drive: when, how long, how far, from where to where.

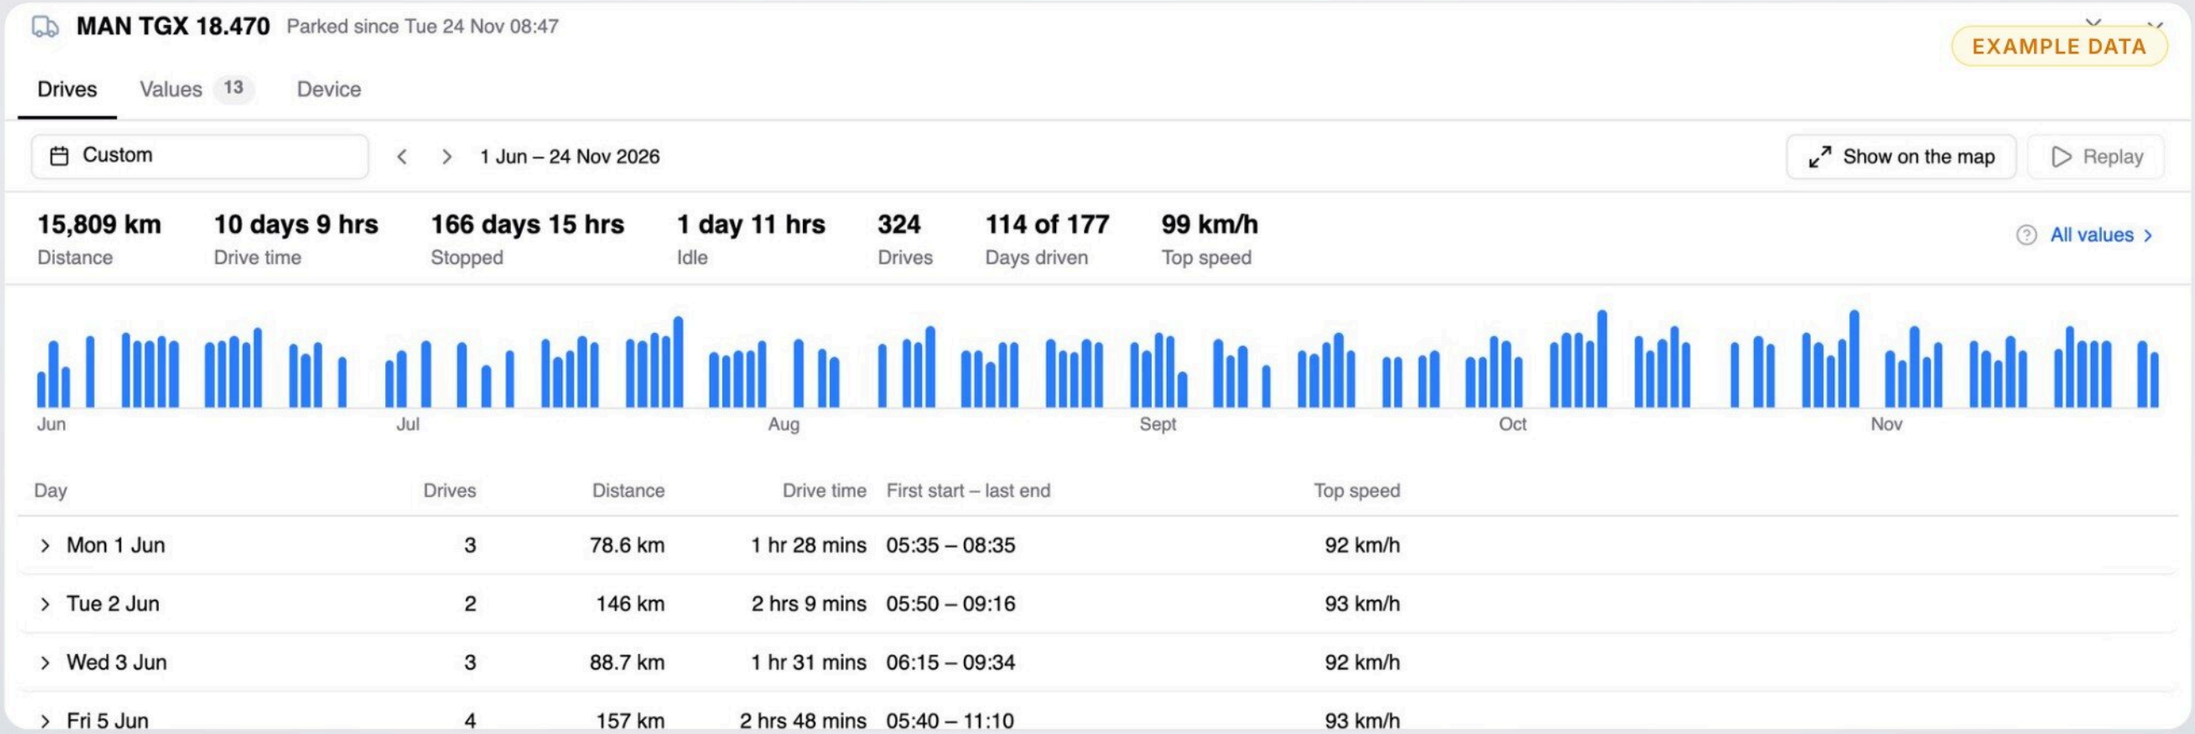

BUILT Drives and stops, made from the tracker's readings. Click a drive to see it on the map.

© 2026 · bimtly.com

A week, six months or a whole year.

One column for each day. Click a day and its drives open below.

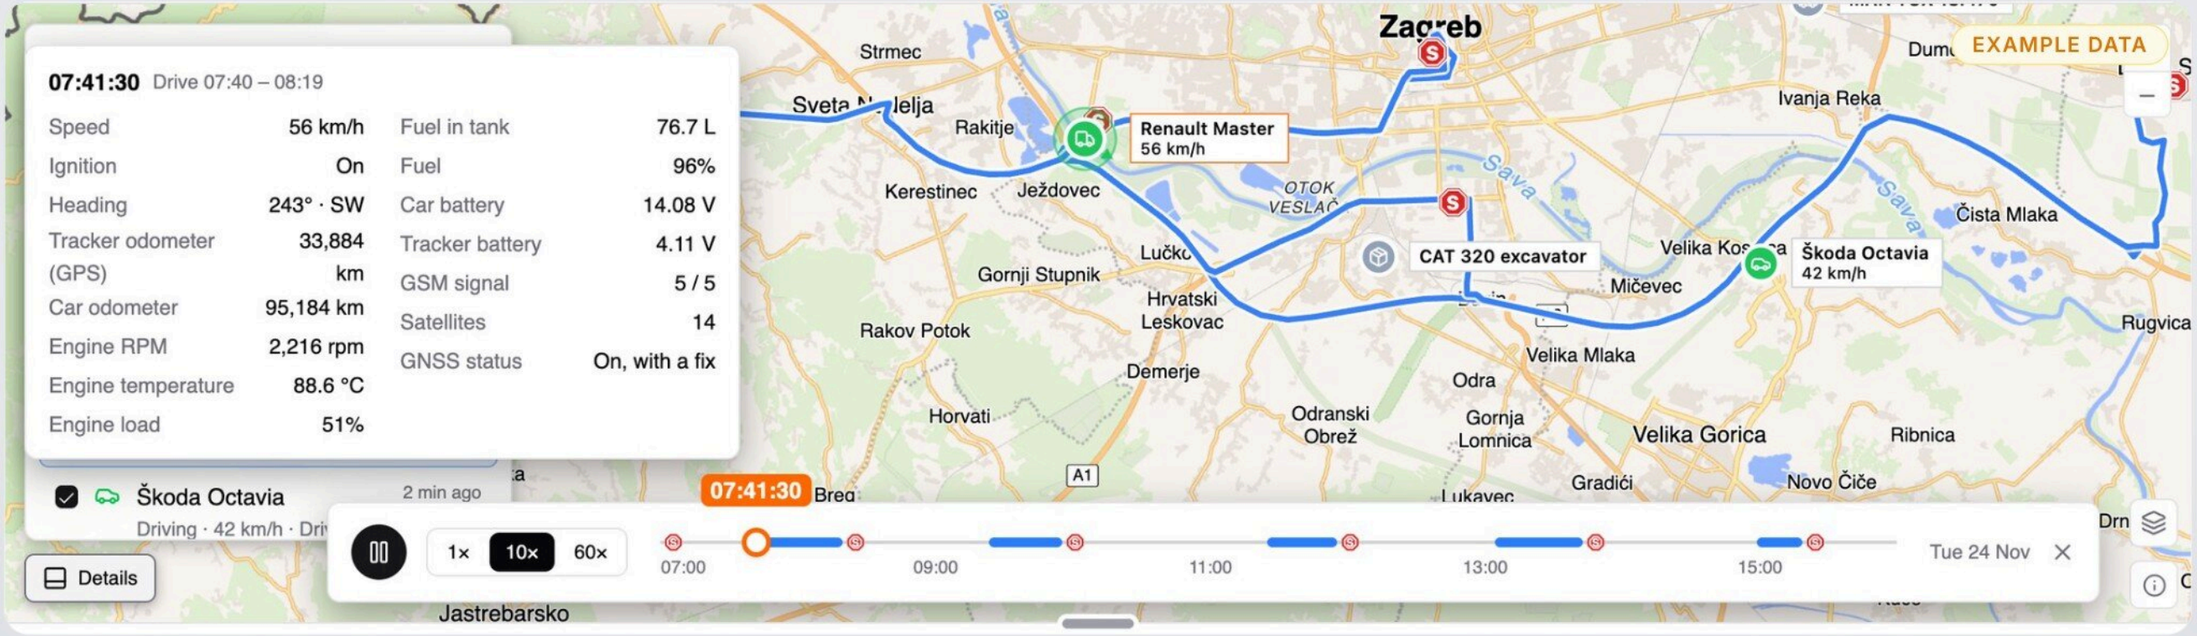

BUILT Any period up to a year: distance, driving time, stops, idle time, top speed.

© 2026 · bimtly.com

Replay any drive.

Watch the vehicle drive again on the map. Its speed, fuel and engine at every moment.

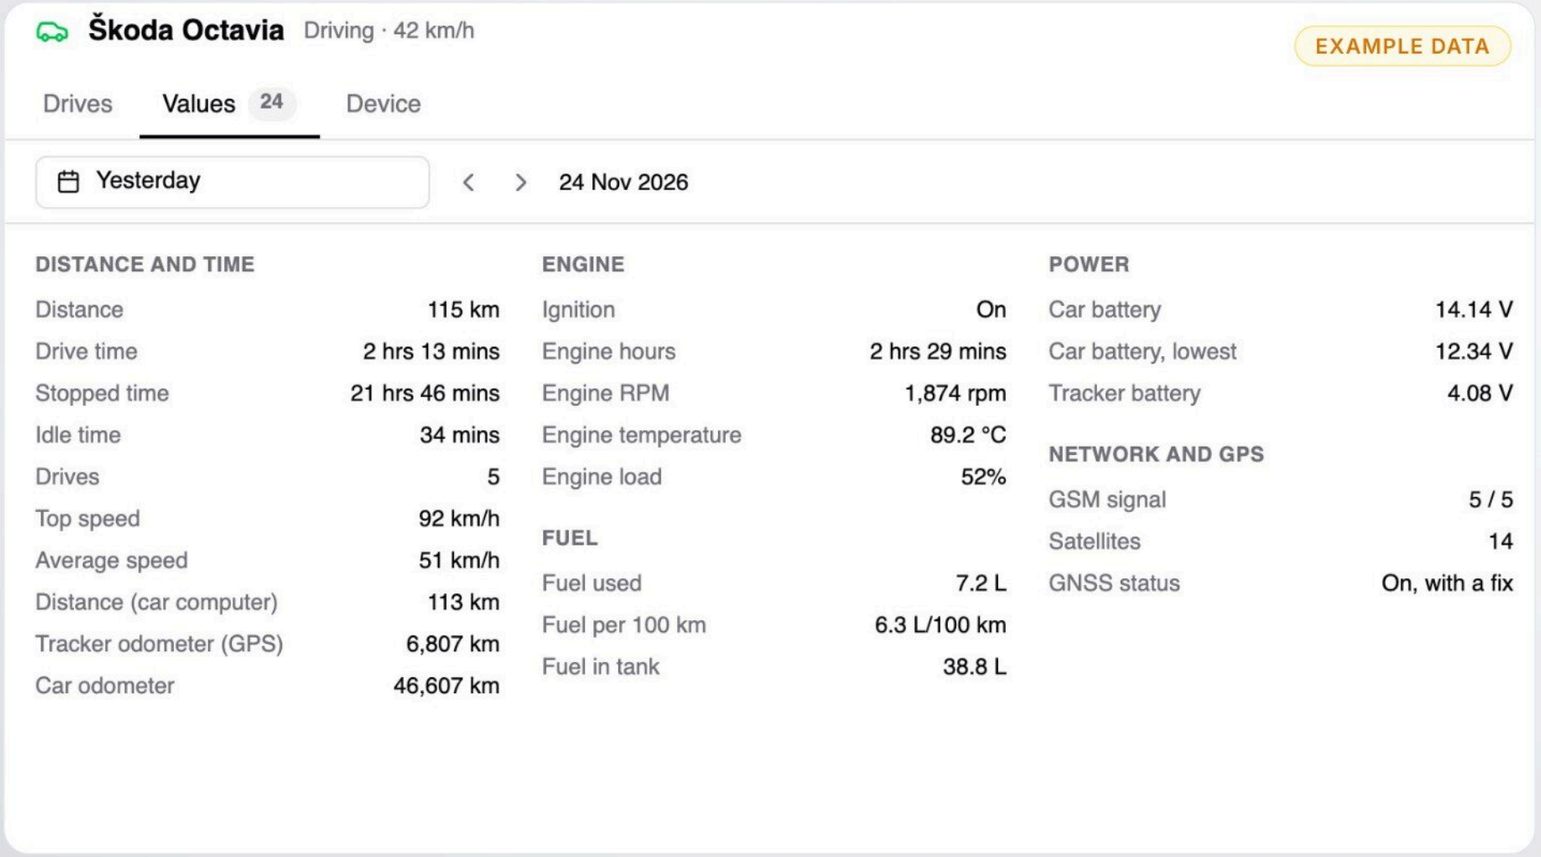

BUILT Replay up to a week of drives, at 1×, 10× or 60×. Jump to any minute on the bar.

© 2026 · bimtly.com

The odometer and the fuel from the car itself.

The tracker reads the car computer. You see what the dashboard shows.

Odometer

The car's own number. Correct it once from the dashboard.

Fuel

In the tank, used, and litres per 100 km.

Engine

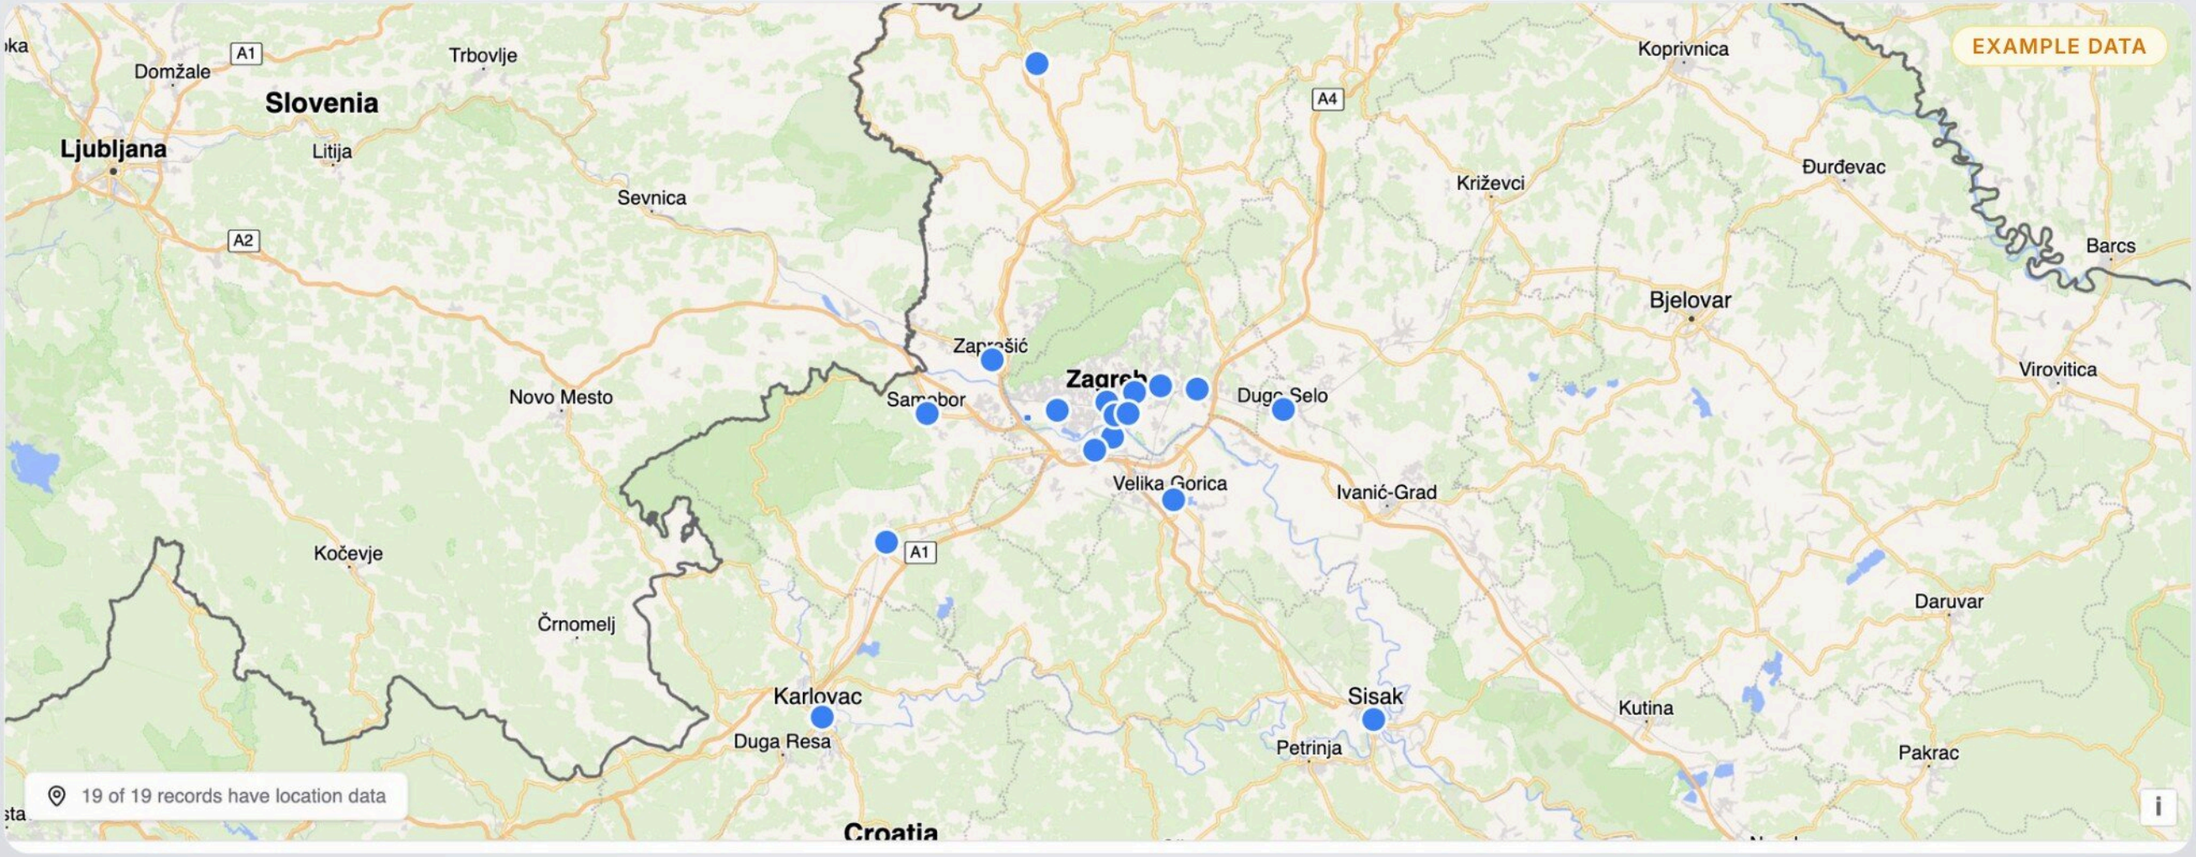

Engine hours, RPM, temperature and the battery.

BUILT Values the car does not send are hidden, never shown as zero.

© 2026 · bimtly.com

Your depot, your customers, your sites.

Add your places once. Every stop then shows the place by its name.

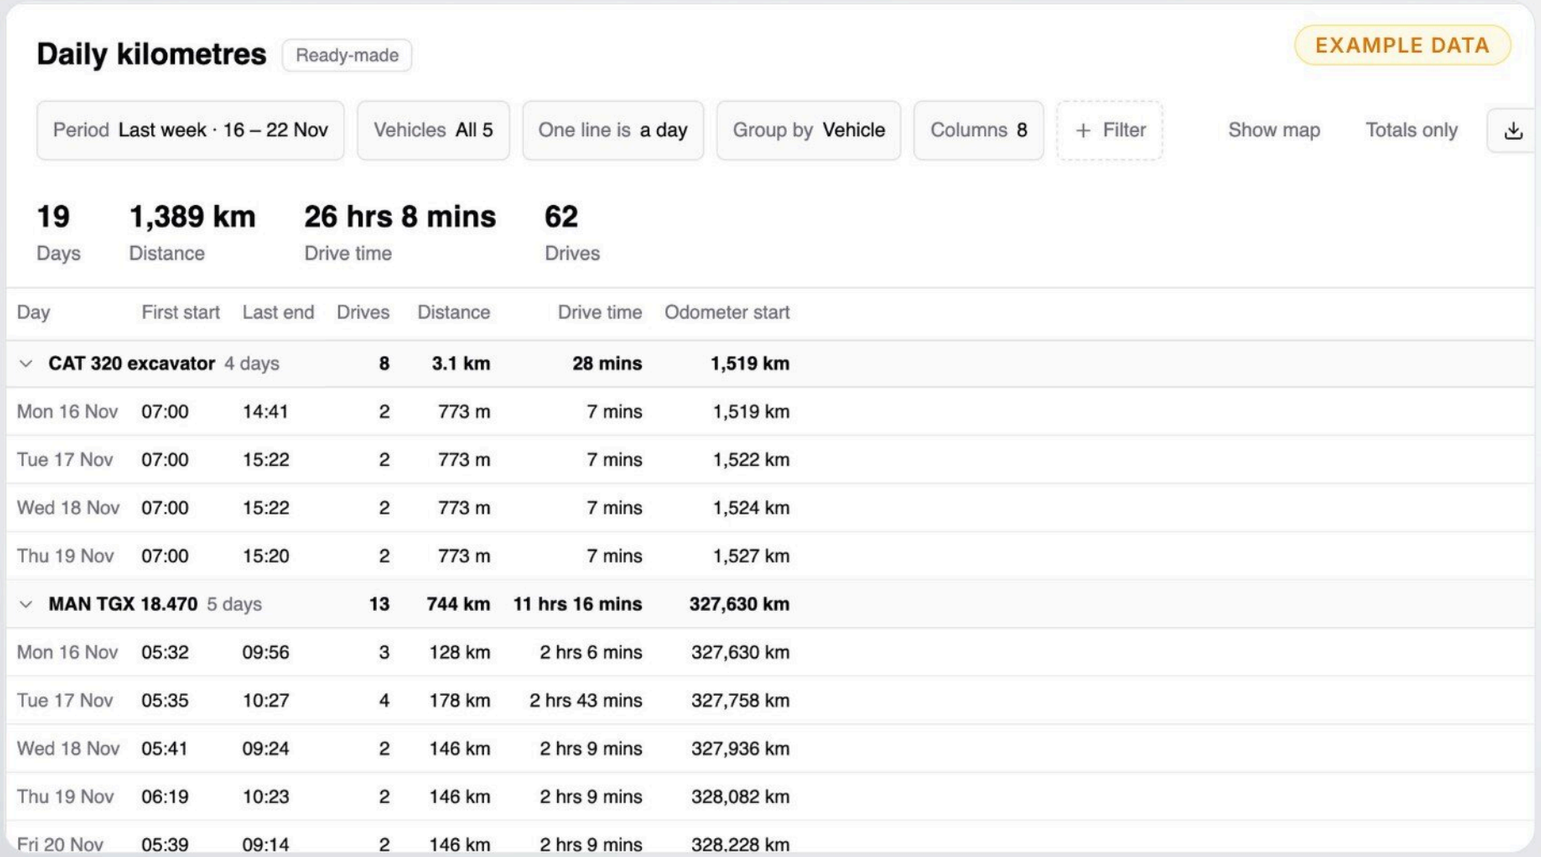

BUILT A place is a point with a radius, or an area on the map. Type an address or import a list from Excel.

© 2026 · bimtly.com

Reports for the office, ready in seconds.

Choose the period, the vehicles or the drivers, and the columns. Download it for Excel.

READY-MADE

Drives · Stops · Daily kilometres · Vehicle summary · Logbook · Idle · Speeding

Group

By vehicle, driver, day, week or month, with totals.

Excel

Download as Excel or CSV.

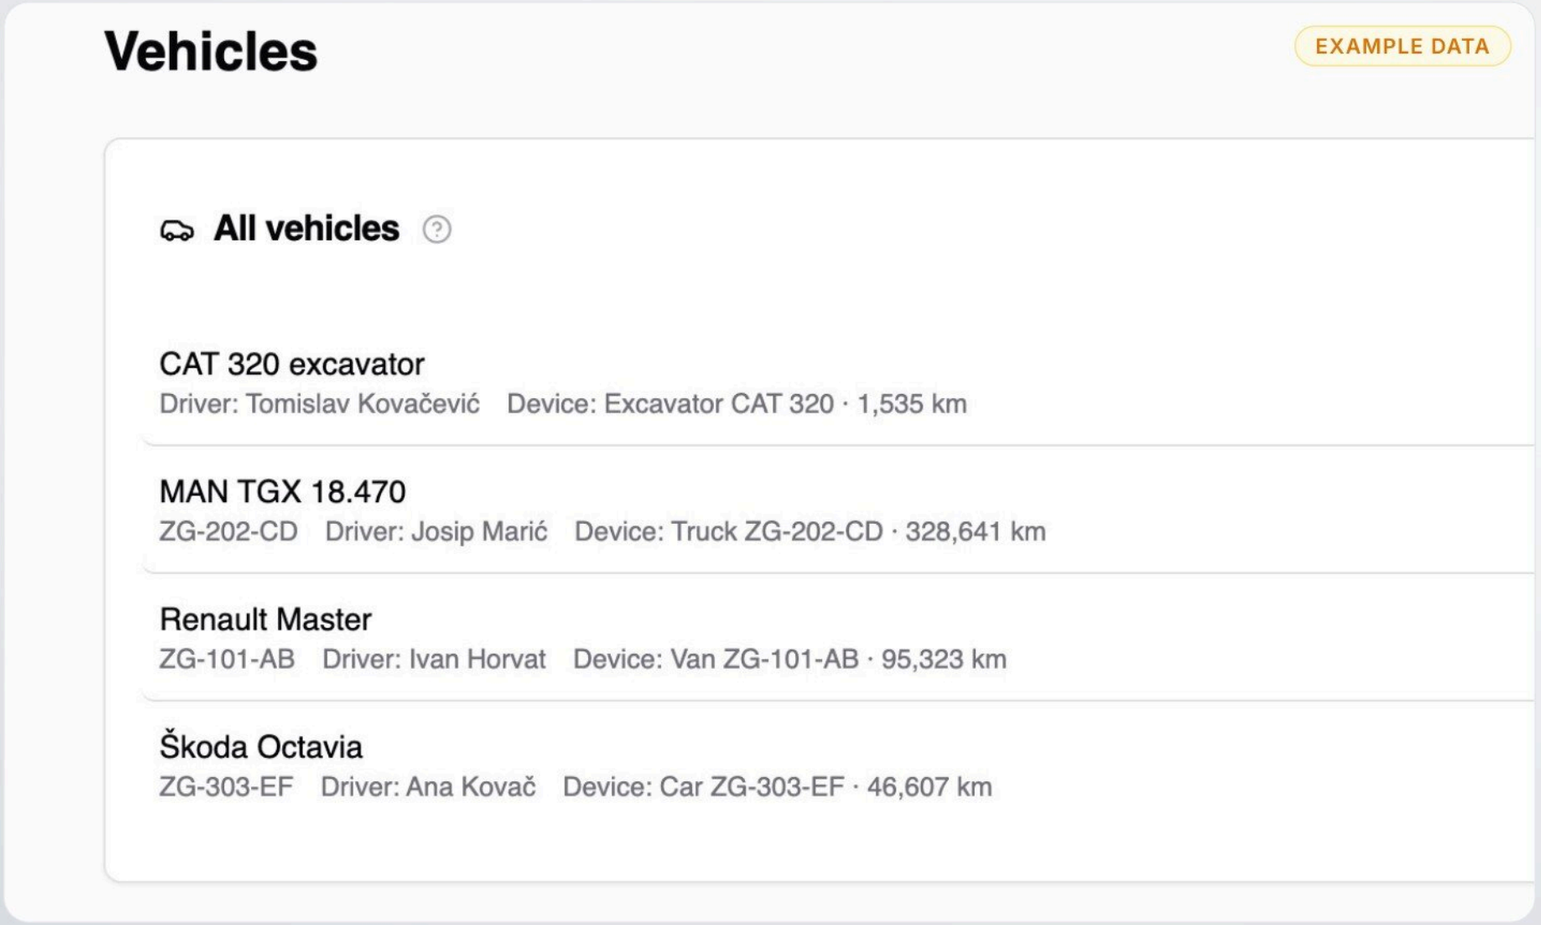

BUILT Ready-made reports and your own columns.

NEXT, WITH YOU Saved and shared reports, and a PDF.

Vehicles and drivers, with their history.

Who drove which vehicle, and from when. Every drive belongs to the right driver.

Vehicles

Name, plate, odometer and the tracker in it.

Drivers

A new driver from a day you choose.

Trackers

Move a tracker to another vehicle. Its history stays.

© 2026 · bimtly.com

Ask in your own words.

The BIMTLY assistant knows your vehicles. In the app, or from your phone in Telegram.

EXAMPLE DATA

Where is the van?

The Renault Master is parked since 15:18 yesterday. Ivan Horvat drives it.

How far did the truck drive yesterday?

The MAN TGX drove 121 km yesterday. Its top speed was 94 km/h.

Where

Where is a vehicle, and who drives it.

How far

Kilometres and top speed for any day.

Change

Add a tracker, or put it in another vehicle.

BUILT The assistant reads and changes Tracking with your rights.

© 2026 · bimtly.com

One platform for the office and the road.

Tracking sits beside your CRM, your quotes and your files. One sign-in, one company, one set of rights.

Tracking

Vehicles, drivers, drives and reports.

CRM

Your customers, contacts and deals.

Products and quotes

Prices and PDF quotes in your brand.

Drive

Your files, shared with your team.

The same people, the same rights and the same assistant in every part.

© 2026 · bimtly.com

Start with one tracker.

Fit it, send one SMS, add it in Tracking. The same day you see the vehicle on the map.

1

Fit a tracker

A Teltonika tracker, fitted by your installer.

2

One SMS

The tracker sends to BIMTLY. Nothing to install.

3

Add it

Type its IMEI in Tracking. Up to 31 days of its memory come in.

4

See it

Your vehicle on the map, with every drive from then on.

BUILT Teltonika trackers, with the car computer’s values.

NEXT, WITH YOU Other tracker brands and phones.
